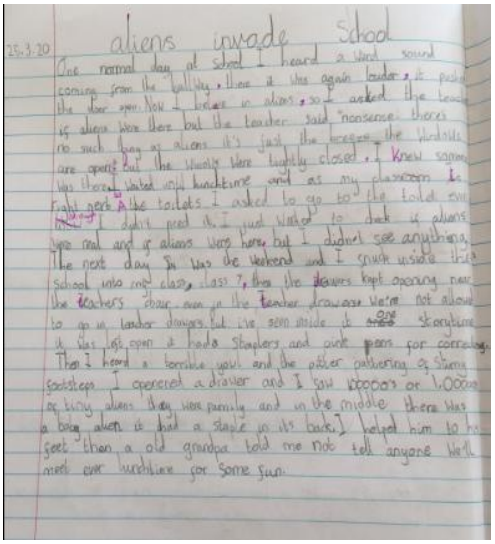
Alys, Class 7…Aliens Invade School!



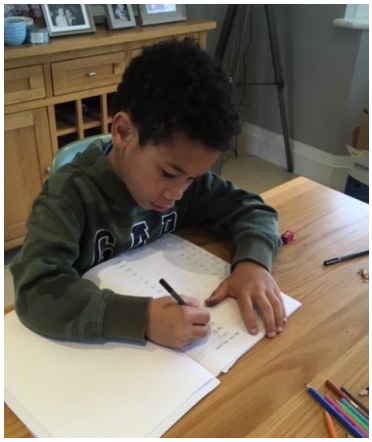
25.3.20 aliens invade School

One normal day at school I heard a ward sound coming from the hallway, there it was again louder, it pushed the door open. Now I believe in aliens, so I asked the teacher if aliens were there but the teacher said "nonsense there's no such thing as aliens it's just the breeze the windows are open" but the windows were tightly closed. I knew something was there. I waited until lunchtime and as my classroom is right next to the toilets I asked to go to the toilet even though I didn't need it. I just wanted to check if aliens were real and if aliens were here but I didn't see anything. The next day it was the weekend and I snuck inside the school into my class, class 7, then the drawers kept opening near the teachers chair even in the teacher drawers we're not allowed to go in teacher drawers but I've seen inside it one storytime it was left open it had staplers and pink pens for correcting. Then I heard a terrible yowl and the pitter pattering of stirring footsteps I opened a drawer and I saw 100000's or 1,000000 of tiny aliens they were family and in the middle there was a baby alien it had a staple in its back. I helped him to his feet then a old grandpa told me not tell anyone we'll meet ever lunchtime for some fun.

Lego creations…

Happy 7th Birthday…Followed the recipe and cooked his own tea!!

Working hard...



Cosmic Yoga

Painting Dad!!

Egg Mobiles Competition

Thank You!

A special thank you to all the wonderful children and staff who have worked and played in school over the past 2 weeks. The children have been amazing. There has been lots fun had and new friendships made. You are all incredible as too are your parents working hard in their very important jobs for our community.
