

Issue 1

27 MARCH 2020

# Henleaze News

## Welcome

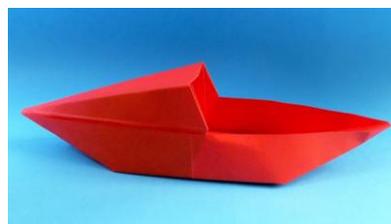

to the first edition of the Henleaze News! We wanted to set up a weekly newspaper full of interesting information, fascinating facts and tricky challenges to help get you through the week and keep us all in touch with one another. We hope to publish a new issue every Friday in term time. However, we don't just want this to be written by teachers. So that's where you all come in; we want this paper to be filled with stuff from **YOU** too! It could be sharing a way you've been entertaining your-selves, sending in a piece of creative writing (photo) or some art work... anything! If you have any good suggestions or ideas, we will ask you to send them in too!

Our email address for all contributions is: [photos.henleazei@bristol-schools.uk](mailto:photos.henleazei@bristol-schools.uk) This will be checked regularly by members of staff .A huge thank you to all the IT folk at Bristol City Council for setting this up so promptly in what must be a very busy time for them.

We'll try hard to publish as many as we can, but we may not be able to fit everything in. We shall see what the take up looks like! We won't be able to reply to each email individually and any messages for school should continue to be sent to the main school email addresses on the school website.

As always, please be thoughtful about what you send in and always check it with an adult. Remember, writing and photos will go on the school website where anyone can see them. We will only put your first name and class next to writing or art work you send in, but not for photos with people in. If you'd rather we didn't and wanted to remain anonymous, just say and we'll only put your year group.

## Weekly Challenge

Make a paper boat and see if it floats. Add lego figures or small toys. Does it still float? Be creative with your design. Get other family members to try. Which is the most colourful? Which is the best design? Which boat could carry the most passengers? You could send in some photos to:

[photos.henleazei@bristol-schools.uk](mailto:photos.henleazei@bristol-schools.uk)

## Communication

We're very aware that we're not available to you at this difficult time in our usual way and you may need extra support. If you need to contact the school because you have any welfare or safeguarding concerns or questions, you can contact us on the following email address:

[safeguardinghenleazeinfants@bristol-schools.uk](mailto:safeguardinghenleazeinfants@bristol-schools.uk)

This confidential email will be regularly monitored by the school's safeguarding team to ensure any concerns or worries are acted upon appropriately. A member of SLT will be onsite at all times during the week and so any **urgent** concerns or needs should be reported by telephone.

If you have a general enquiry please email the school email as you would normally . This email address will be regularly monitored.

## Fascinating Facts

It is impossible for most people to lick their own elbow (try it!)

An ostrich's eye is bigger than it's brain!!!!

Remember if you find out some fascinating facts about our topics or just general email them into...

[photos.henleazei@bristol-schools.uk](mailto:photos.henleazei@bristol-schools.uk)

## Future Issues

The aim for this moving forward will be a space to share, fun activities and to be as much for the children as for information to parents. We shall include word searches, spot the differences etc.

Thank you to all the parents and carers who have emailed good links that they have found for activities to engage us all. We wanted to share some of these with you that were not just educational. Lots of links to these are already made on our home learning sites, accessed through the school blog. Remember the home learning will be updated by 4pm on a Friday for the following week. Next week we shall also add some ideas for fun Easter activities that are not all based around technology!! Look in the blog which will give you a link to pdf with suggestions that have been made by parents so far.
