Headteacher update:

Last night's 'curriculum showcase' event was the standout highlight of the week. We were thrilled that so many families took the time to come to find out more about how and what children learn throughout the curriculum. Our 'mini experts', the Subject Ambassadors did a great job of explaining what happens in each subject as well as getting everyone involved in all the hands-on activities on offer.

Feedback from adults who came to the event was really positive and will help us shape future events:

"I was not sure what to expect and though it might be a sit down presentation, but this is much better.... it is great to see things in action"

"I love the class books. It is so great for parents to see what they do...particularly if your child isn't someone who says much about their learning..."

"its lovely to see how proud the (Year 2 Ambassador) children are!"

"It has been good to see the teachers who lead the subjects"

"It has been useful to remind us how broad the curriculum is...we know that there is so much more than reading, writing and maths and this is a good reminder..."

For those of you who were unable to come to the showcase, [lots of information can be found on our website in the curriculum pages](#) where each subject is linked. We will also put photos and comments from the event together into a digital presentation and add this to our curriculum page soon.

2.7 Inclusive Sport in Bristol

This email is from members of the Bristol City youth council; a group of young people elected in February 2022 to represent the young people of Bristol. This year, a group of us are focusing on disability sport access, as a part of our health campaign. Attached to this email is a document containing a collection of disability sport organisations across Bristol. We are extremely passionate about getting the word out about these groups, as currently young people with disabilities find it extremely difficult to discover their existence, and this shouldn't be the case. In our group we are lucky to have Samuel Richards who has personal experience with this topic. Here is a note from him:

My name is Samuel Richards and I have Cerebral palsy and Hearing loss, and the document that is attached is a very personal thing for me. My family and I find it really hard to find disability sport and I never had a chance to look at a document like this, which had all of the disability sports you can access around Bristol. It's a big passion of mine for all children with disabilities to have access to this document, as I feel like I missed out on these opportunities earlier. This is why we've sent it to you today.

Please see [linked](#) document so that young people with disabilities don't miss out on these sporting opportunities.
